

Y ANALYTICS (TPG) – ASSOCIATE, ESG PERFORMANCE (ASIA REGION)

Location: Singapore

APPLICATION INSTRUCTIONS: In lieu of a cover letter, please prepare a 1-page response to the prompt below. Please send your resume and response to recruiting@tpg.com. Write in the subject line: “Last Name, First Name – ESG Asia Associate”.

Application Prompt (please limit your response to a single page or less):

Imagine you are assessing the ESG (environmental, social & governance) performance for a pharmaceutical company. Please describe:

- (1) how you would conduct an initial market scan to “get smart” on the pharmaceutical space;
- (2) how you would determine what ESG-related factors are relevant to the company and industry; and
- (3) how you would assess the company’s current risk exposure and performance against these ESG factors, including what sources and data you would use.

ABOUT Y ANALYTICS

[Y Analytics](#) is [TPG's](#) innovative internal capability, purpose-built to understand and improve the environmental and social impacts of deployed capital. Our mission is to increase the amount and effectiveness of capital allocation for the greater good, as described in the UN SDGs, by increasing trust in the social and environmental impact achieved by that capital.

Y Analytics was launched in parallel to [The Rise Fund](#) and founded in partnership with TPG/Rise to provide best-in-class insights and tools that improve capital allocation decisions. Our rigorous approach to impact assessment and management draws on evidentiary academic and economic research, enabling greater use of evidence in capital allocation decision making and impact valuation.

Today, Y Analytics directly supports impact assessments and decision-making for The Rise Fund (\$4+ billion under management), the recently-announced [TPG Rise Climate Fund](#) (\$5.4+ billion first close), and other TPG companies/vehicles with impact objectives. Y Analytics’ mandate also covers Environmental, Social, & Governance (ESG) performance and sustainability across TPG’s firm and portfolio. We support TPG and its portfolio companies by assessing ESG performance and advising on value creation opportunities.

As we continue to grow, we are leveraging our capabilities in new and innovative ways and sharing our learnings with the broader investment and research communities.

PRIMARY RESPONSIBILITIES

This role will be directly engaging with TPG platforms and portfolio companies in the firm's Asia region. The ESG Associate will be responsible for ESG assessments, data analysis, and content development and engage across the investment lifecycle: beginning with diligence, to onboarding and agenda-setting, during holding, and nearing exit. Their primary responsibilities will include:

- **Conducting ESG-related diligence of potential investments and portfolio companies, within TPG's Asia investment platforms.** This work requires a combination of desk research, data analysis, and synthesis of ESG risks and opportunities for potential or existing portfolio companies. This work requires an inquisitive mindset, self-direction, and a pragmatic client service orientation, given the rigor and turnaround times of private equity deal flow.
- **Analyzing ESG, operational, and financial data to baseline, benchmark, and enhance performance of TPG's Asia portfolio.** The Associate will be key to generating insights on portfolio companies' and platforms' current ESG performance, along with risks/mitigations and value creation opportunities. Example responsibilities will include survey analysis, leveraging ESG data from third party platforms, developing and implementing replicable benchmarking methodologies and visualizations, and succinctly communicating results and priorities to portfolio companies and internal stakeholders.
- **Facilitating a strong ESG ecosystem in Asia.** The Associate will work with Y Analytics and key stakeholders in TPG's Asia offices to help build a rigorous ESG network. Effective communication and relationship management skills will be important tools to grow the ESG ecosystem. This work requires an ability to work independently, foster connections, and anticipate growth opportunities.
- **Other research and content development as needed.** The Associate will play a cross-functional role and will help support the team as we continue to grow. Additional responsibilities may include: developing thought leadership or other external-facing content around areas of firm expertise; developing educational content for investment professionals and company boards; conducting deep dives and analysis related to a particular sector or research theme.

REQUIRED QUALIFICATIONS

- **Undergraduate degree required, advanced degree preferred;** ideally in a relevant area of academia.
- **Minimum of 2 years of full-time work experience.** Ideal candidate will have at least 1 year of experience in ESG/sustainability related consulting, research and analytics, or similar professional services.
- **Commitment to Y Analytics' mission** to improve the future of humanity and our planet through effective capital allocation for the greater good
- **Familiarity with common ESG frameworks, standards, KPIs, and trends**
- **Demonstrated ownership and self-direction:** must be able to drive work forward independently, self-guide research and manage projects, and deliver top quality, highly polished outputs by set deadlines
- **Exceptional written and verbal communication:** must be able to synthesize findings from research and data analysis in presentations and written documents, and communicate these to internal and external senior executives

(continued on following page)

- **Strong strategic thinking and problem solving:** must be able to navigate challenges (e.g., data gaps) with creative problem-solving ability and a can-do attitude
- **Strong quantitative analytics capabilities:** must be able to quickly and accurately analyze company and third-party data, and apply practically in live deal/company contexts
- **Highly collaborative:** must be a strong team player who is effective in a fast-paced, teamwork-heavy, cross-functional environment.
- **Fluency in English**

ADDITIONAL PREFERRED QUALIFICATIONS

- **Authorization to work in Singapore strongly preferred. Please indicate upon application if you would require sponsorship.**
- **Experience working in Asia strongly preferred.**
