### ABOUT Y ANALYTICS

[Y Analytics](#) is [TPG's](#) innovative internal capability, purpose-built to understand and improve the environmental and social impacts of deployed capital. Our mission is to increase the amount and effectiveness of capital allocation for the greater good, as described in the UN SDGs, by increasing trust in the social and environmental impact achieved by that capital.

Y Analytics was launched in parallel to [The Rise Fund](#) and founded in partnership with TPG/Rise to provide best-in-class insights and tools that improve capital allocation decisions. Our rigorous approach to impact assessment and management draws on evidentiary academic and economic research, enabling greater use of evidence in capital allocation decision making and impact valuation.

Today, Y Analytics directly supports impact assessments and decision-making for The Rise Fund (\$4+ billion under management), the recently-announced [TPG Rise Climate Fund](#) (\$5.4+ billion first close), and other TPG companies/vehicles with impact objectives. Y Analytics' mandate also covers Environmental, Social, & Governance (ESG) performance and sustainability across TPG's firm and portfolio. We support TPG and its portfolio companies by assessing ESG performance and advising on value creation opportunities. We also engage publicly to advance capital allocation for good.

As we continue to grow, we are leveraging our capabilities in new and innovative ways and sharing our learnings with the broader investment and research communities.

We have an exciting opportunity for a candidate to work as an Associate, ESG Analytics & Reporting Limited Partner (LP) Engagement.
